Following the recent fraud attempts, every IBAN change now requires a call-back to the client, on a phone number already on file, before validation.

Sophie Martens 2026-08-25 09:15

Understood. Who performs the call-back, and when?

Julien Roy 2026-08-25 09:18

The Compliance team performs the call-back within 2 working days after the request.
