

Teams discussion - MES interface test results

Type: Teams discussion | Created: 2026-09-24 | Last modified: 2026-09-24 | Owner: Dimitri Lambert

Dimitri: The MES interface integration test failed again this morning, second failure in two weeks.

Dimitri: The root cause is the order status message format, Norvik IT will deliver a corrected specification by 2 October 2026.

Nathalie: OK, I raise the MES interface risk to high in the risk register.
